REFLECTIONS '90

We all spend many happy hours on reflections — those special memories that take us back to another time, another place. High school memories especially call us back to those moments of magic that passed all too quickly. Our first love, winning and losing, football games, homecoming dances, favorite teachers, graduation — all these memories call our name as we sometimes get lost in the past.

The '90 school year brought with it both triumphs and defeats. After the ringing of the final bell, only the memories remained. There was no better place to be than right here at G.C. As we explore the "Reflections" theme, we discover that the memories stay forever within the pages of the '90 *Musketeer*.

SENIOR

One big aspect of student life at G.C. was finding the winning combination of studies and other activities. Scheduling after school activities plus social life plus lessons wasn't easy. Time management strategies were in full force. These twenty senior salutes got it all together and were honored for their academic and community involvement. They reflected the essence of G.C.
